## CONNECTIONS THAT LAST A LIFETIME

Since our earliest days, Cross has rewritten the rules for putting pen to paper. Our founder, Richard Cross was a passionate champion of writing as an art form – a personally rewarding experience worthy of distinguished, expertly crafted tools. When he established the A.T. Cross Company in Providence, Rhode Island in 1846, he became the leader of America's first manufacturer of fine writing instruments.

Today, an iconic Cross pen remains the gift of choice for generations, marking life's important moments and milestones with distinction.

We're honoured to bring family and friends together through the written word. Our pens are crafted for a lifetime of enjoyment and backed proudly by our

# EMBRACE THE ART OF GIVING

With Cross, every writing instrument narrates a story,  
and every word penned becomes a timeless gift.

From the timeless elegance of Royal Blue to the energy embodied in Crimson Red, Cross captures the story.

Discover the power of gifting with hues that evoke emotions and sentiments.

A man with glasses and a beard, wearing a yellow long-sleeved shirt, is seated in a black office chair at a desk. He is looking down at an open book he is holding. The desk is cluttered with a computer monitor, a keyboard, a mouse, and a stack of electronic equipment. A potted plant is visible in the background. The scene is lit with warm, ambient light.

# STEADFAST BLACK

# ENGRAVING SERVICES

Most Cross writing instruments include an area on the cap for engraving. Standard caps accept one line of engraving. The barrel section of writing instruments cannot be engraved.

**Engraving lead time and availability:**  
**Contact your Sales Representative for more information.**

Engraving methods for precious metal caps include drag, deep-cut without colour, deep-cut enamel-filled, and laser.

- Drag engraving offers up to 28 characters engraved in your choice of Block, Script, and Double-line Gothic type styles.
- For deep-cut, enamel-filled engraving, font styles include Block, Script, Contempo and Times Regular. Colour-fill options vary by product. Metal pen fill available in black, gold, blue, red and green. Lacquer finishes with gold-plated appointments include a standard colour-fill of gold tone. Lacquer and satin finishes with rhodium- or chrome-plated appointments include colour fill of silver tone.

# TIP TECHNOLOGIES

Cross luxury writing instruments are available in a wide variety of tips to suit many consumers' needs.

Depending on the item, the tip technologies available are:

## FOUNTAIN PEN

- One of the oldest styles of writing instruments, fountain pen nibs actually adapt to your own personal grip and writing style over time, creating lines on the page that — like your signature — are your own. Ink flows by capillary action from an ink reservoir to the fountain pen nib, which is the delicate split metal mechanism that contacts the paper. A favourite of the true connoisseur, fountain pens are each a work of art in their own right.
- Cross offers nibs in three widths, depending on the collection: Medium, Fine & Extra-fine
- Cross Fountain Pens support two different feed systems:
  - Cartridge, or a replaceable capsule full of ink, which is inserted into the neck of the nib.
  - Converter, which allows the writer to load liquid bottled ink and insert it into the writing instrument.

## BALLPOINT PEN

- The Ballpoint is the most popular tip technology and in many ways the simplest. A Ballpoint Pen uses a small rotating ball made of carbide to disperse ink as you write. This ball acts as a buffer between the material you're writing on and the ink inside the pen. The ball rotates freely and rolls out the ink as it is continuously fed from the ink reservoir.
- Ballpoint Pens are not capped, but instead retract and store via a rotating mechanism in the barrel.
- Low maintenance and easily refillable, the Ballpoint Pen is the option for the everyday pen user.

## SELECTIP® ROLLERBALL

- Our most versatile tip technology is proprietary to Cross, and is known as Selectip® Rollerball. A Selectip® allows you to “select” the kind of refill you want to use in this writing instrument from the following options:
  - Gel Rollerball (a mix of Ballpoint ease of use and the elegance of Fountain Pen ink-flow)
  - Jumbo Ballpoint (Ballpoint technology with a bolder, fuller write-out)
  - Porous-Point (most commonly known as a Flair or Marker Point)
- The inks in a rollerball are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen. Aqueous based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always cap, or retract, Selectip® pens between uses.
- Unlike Ballpoint Pens, most Selectip® Pens have a separate cap which prevents the ink from drying during storage.

## GEL INK PEN

- The tip technology of gel ink has been rapidly gaining popularity over the past few years, and Cross now has several retractable gel ink writing instruments.
- Gel inks are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen.
- Aqueous-based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always retract the tip after use.

# CROSS WARRANTIES
